HOW TO USE THIS REPORT

In the pages which follow, you will see descriptions of your character traits, relationship potentials and challenges, as well as career potentials, and even more.

All or most of these sometimes intimate descriptions will be linked in some way with your past lives and your experiences in the planetary realms between lifetimes (the interlife).

Yet, you may ask, how can this information best be used?

First, **HELP YOURSELF**. The enclosed uplifting commentary can only be truly beneficial if you see it as a means of self-help and self-transformation. So to get the maximum practical benefit out of each page of this report, focus on connecting what you read with what is going on in your life now.

Next, **LOOK FOR PATTERNS**. When you see repeated references -- for instance to similar careers, pursuits or vocations -- you should consider these references seriously. They demonstrate a positive karmic connection which you now have with these same career-related potentials from past life endeavors. So, because of prior life success, these areas of expression should be easier for you to find rewarding or to succeed in, as compared with in other areas.

Also, pay close attention to **REMEDIAL MEASURES**. For instance, you may be given an affirmation to use in meditation (or a prayer). Or you may be given a crystal/gemstone to wear. These means of balancing out challenging vibrations can indeed be very helpful, especially if used in a hopeful manner.

Finally, this report is a synthesis of past life and planetary interlife interpretations originally given clairvoyantly by Edgar Cayce, for individuals with your same planetary patterns at birth. So in applying this report to your personal life, you should **RESPECT INNER GUIDANCE** --through dreams, meditation and past life regression for example -- as primary resources for this kind of information; and most important, **RESPECT YOUR FREE WILL!** You alone must choose and know what is really best for you.

Your birth chart interpretation is based on the positions of the planets at the time of your birth.

Astrologer Ry Redd calculated on computer the astrology charts for hundreds of people who received readings by Edgar Cayce which contained astrologically based information. By studying these astrology charts, Ry Redd determined what planetary influences were most likely responsible for the readings by Edgar Cayce. In many cases the astrological basis of the Cayce readings appears to be very straightforward. From this information Ry Redd was able to develop, in conjunction with the computer programmers at Cosmic Patterns Software, an analysis of your birth chart as Ry Redd believes that Edgar Cayce's psychic readings would have interpreted it. Ry Redd's research effort was exhaustive and was conducted over many years, some of which was spent at the Edgar Cayce library at the Association for Research and Enlightenment headquarters in Virginia Beach, Virginia.

For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Sun position is 2 deg. 48 min. of Scorpio
Moon position is 29 deg. 12 min. of Pisces

Your Past Life Report begins on the following page . . .

Your Moon harmoniously aspects Jupiter.

High ennobling qualities are yours from your soul journey in the Jupiter sphere between lives. Uplifting influences, then, arise from your experiences in both your Jupiter sojourn and in past life positions of prominence, most likely on a high, history-making level as a spiritual leader. You are then, a loving, noble soul in your interactions with others, causing them to have faith in themselves (and in you).

In fact, with your greater possibilities in giving aid in every manner, you would make a WONDERFUL minister. You would also be successful in management, administration, economics and politics. Coming from your past lives of service on behalf of others, you may guide and direct many souls this lifetime.

While you have quite a temper, you are very capable of controlling it and turning it into channels through which better influences come, both to yourself and to others.

You should also have a greater deal of the world's material goods for you to use and share with others. You are therefore one with an elevating outlook and lifestyle, and will give a lot to the development of other souls.

Drawing on the resourceful side of your akashic record -- where your soul development through caring service from past lives is stored -- you are likely to experience great blessings. While some may see you as "lucky", what is really happening is that soul links from previous compassionate incarnations are attracted to you and want to help you. This good karma will especially bring you benefits in your home life, particularly concerning your mother, with whom you have a strong, mutually beneficial bond from your deep cosmic past. [2903-1, 140-3, 2855-1]

Your Moon is in an inharmonious pattern with Uranus.

Uranus is the Atlantean planet, the dimension of originality and extremes, and the Moon is our "way station" between planetary sojourns. As such, the Moon is our reservoir of past life emotion and karma. You chose a birth time when your afterlife soul experiences in the Moon and Uranus dimensions were in conflict through the difficult aspect pattern between them. This challenging aspect calls forth from your akashic chronicle challenges to face in your emotional life. The most likely original roots of this emotional karma lies in a long-ago lifetime in Atlantis.

Having an intense, strong-willed, independent personality, you are likely to be drawn between experiences that are extreme. Hence there have probably been periods in your life when financial or material things could be described as having been very good and very bad, very pleasing yet very often sad. You may often be ruled by judgments concerning financial matters, yet there are other times when such judgments appear not to matter at all.

In other words, you may often be financially preoccupied, yet allow generosity toward your friends and family to override rational decision making. There may be, then, an instability at times, when you are motivated by sentiment or friendship without even the appearance of reason.

Because of these tendencies, it will be very important for you to set your personal spiritual goals and ideals regarding your relationships, then stick to them. Your choice of companions throughout your life will be as critical as your choice of ideals to help you stay on the right track.

First study yourself inwardly, through prayer, meditation and dream work. Know your motives; that is, what are the real reasons which prompt you to do the things you do with your fellow man. If they are selfish motives and are not prompted by the desire to be a better channel, a better expression of the Creative Forces through your own relationships or activities with others, know that they must eventually bring confusion in your life.

You might use self-suggestion via auto-hypnosis and guided imagery. This may help you to be

more centered and spiritually attuned. Try to combine these exercises with prayer and affirmations which assist you in turning within for guidance, rather than relying entirely on your own independence and willfulness. Above all, pray for the resolve to be consistent in applying your ideals as set in the Christ. Prayerful study and contemplation of Jesus' promises in chapters 14-17 of Saint John's Gospel would be a priceless resource. [1175-1]

Your Mercury is conjoined with Venus.

You have high intellectual abilities together with a strong home loving and artistic temperament. You have a cautious, resolute and tenacious mind, reserved and self-controlled as far as feelings for others is concerned. You are interested in people, are a good conversationalist and companion, and a wholesome influence on most groups. Your entrance into groups or companionships with others is even more beneficial to them than to you. You would make an excellent creative writer or designer, being interested in all forms of the arts, especially music, color and form.

In fact, your intellectual, artistic abilities are very likely to be considerably above average. Therefore your potentials especially in the literary field are exceptional. Commercial applications of your mental abilities in law and advertising are also encouraged.

The love influence in its highest or noblest sense is primary for you. Were others to criticize you for allowing what they perceive as carnal love to be influencing you excessively --your experience of "love at first sight" for example -- you do little condemning in return. Although you and many others see the sacredness of such physical expressions, your love expressions are likely to be mostly on the level of speaking kindly and having generosity, a gentleness of manner and trueness of spirit. You are more likely to fall in love with a beautiful evening, and to find much wonder in the moon, the planets and stars. The beauty of nature, with its clouds, lightening, thunder and other natural voices are for you -- though maybe hard for others to understand - - an especially rewarding, stabilizing influence.

Attraction to and by the beautiful and handsome in the opposite sex will often influence you a great deal. If other past life indicators point to challenges in this area of your personal life, they are most likely to deal with the influences of passion, on both the mental and purely physical levels. That is, your feelings, desire, and sensation -- all elements of passion -- may at times be overactive, even impulsive. There is also some danger of jealousy and misplaced trust in love relationships. This may actually be due to a mild aversion of forming close relationships, because of past life associations needing self-healing in the present.

Moreover, it may often be difficult for you to hear from others, or yourself express through stories, jokes or the like, that which is considered coarse or crude. However, having considerable mental concentration powers as well as charm you can control and disguise your feelings when you feel the need. [1136-1, 2612-1, 2386-1, 1792-1, 234-1, 305-3, 1637-1, 304-5, 3271-1, 2124-3, 1716-1, 1991-1, 1230-1]

Your Mercury is in an inharmonious pattern with Saturn.

You have high mental desires yet are influenced at times by things that would be quite objectionable to others. Feeling that another try would be better you often wish for a change. This comes from your Saturn experience, where you learned on the deepest level to blot out the old and replace it with new beginnings. However, you may put too much trust in things that take wings and fly away.

And you are especially likely to face discouragements with your relatives and social relationships as well. Particularly in such situations your mental attitude may be too easily depressed or undermined by just one unkind word. Trusting, however, in things which are eternal, you can instead be constructive in response to life's challenges by giving good even for evil.

Dealing with people in the world of commerce would be well for you, especially in sales. In fact, you have exceptional mental abilities in the handling of business. You are able to make many sales, being a REAL salesperson.

Your adverse Mercury -- from Saturn's experience -- is interpreted with minimum emphasis on your shortcomings and maximum stress placed on your virtues. You are sensitive to a fault, at times even suspicious and mistrustful of others. So, you may often jump to conclusions before your reasoning force has had the opportunity to put things in perspective for you. Yet you can be loved into seeing alternative actions to follow, but seldom will this change your opinion unless you have been able to reason everything out. Therefore you are likely through your strong mental reasoning forces to reach your own conclusions for yourself in virtually all areas of your life.

However, your limits in lovingness and understanding may continue until you allow --through applying your will -- for your Saturn upswing side of redeeming renewal to work through faith.

Your experience of Saturn brings changes of every nature which must be met through will's application, for it is through the application of will that we each develop or retard. Therefore you will be able to overcome a great deal of depressing conditions this lifetime by the choices you make. Choices are especially necessary in setting an ideal, whether it be as to citizenship, parenthood, neighborliness or your spiritual life as such (like your manner of church service).

You are one that has probably found the vicissitudes of life especially challenging in your personal relationships, whether marital or friendships. While many of your saddest experiences may have come through the breaking up of relationships, many of the happiest and peaceful ones have come through these relationships.

Perhaps as a result of such disappointments, your intuitive forces at times bring you periods of moodiness. These are likely to be times of self-condemnation and belittling your abilities. Facing these personal challenges, you can either make considerable spiritual advance, or fall into a "don't care" attitude. Do avoid developing this attitude in any area of your life, for you -- like all of us -- has a niche, a special place that none other may fill.

When you seek to meditate, say in your viewing of nature, there is a tendency for you to become nervous from being in one place too long. Wearing the blue lapis stone --particularly the lapis lingua --

will not only be an aid in calming you during your meditation periods. Lapis will also be a helpful influence for you in developing a FORGETFULNESS to life's hardships, especially the hard things said or done by others. [1565-1, 963-1, 674-3, 1745-1, 369-3, 1858-1, 1918-1, 2421-2, 608-7]

Your Venus is in an inharmonious pattern with Saturn.

You have chosen, through this aspect, perhaps your greatest challenge for achieving either great healing or great hurt!

By choosing a time of birth when these two planets were in an inharmonious pattern with each other in the zodiac, you brought with you into this experience the challenging sides of your between life experiences in Venus, realm of creativity, beauty and love, and Saturn, the dimension of deep change, self-purging and remolding. Because your soul flight paths from Venus and Saturn were thus at odds with each other, as a soul re-entering the earth plane, you read from and have since acted upon the debit side of your spiritual record.

In other words, you are inclined to attract associations from previous lives which are the karmic source of relationship challenges you face this lifetime as well as difficulties in loving and appreciating yourself. These past disappointments in love and disillusionment with marriage are being brought back to you for a proper hearing and, hopefully, a permanent healing.

Since self-healing must be preceded by self-knowledge, recognize your tendency toward separateness and self-centeredness, both of which hurt those you love and those who would love you, were you to let them. As you get older, loneliness and related personal limitations may set in, including problems with finances (Venus rules both love and money). Ironically, in spite of your apparent self-sufficiency, you must face and overcome the difficulty of standing up alone in the world, of being truly independent emotionally.

Your soul journeys in the spheres of Venus and Saturn between death and rebirth inclines you to hold yourself aloof from other people, their thoughts and their opinions, because what suits you is usually quite self-sufficient. What relationships you have tend to be rather intense, unless you balance yourself through spiritualizing your emotions.

You are doubtful at times of the sincerity of others who try to proclaim their affections for you or who try to get close to you. At other times, this intensity may manifest as jealousy when there is reason to suspect infidelity. Remember that, while all love is lawful, not all expressions of love are expedient (for example, tolerating or encouraging adultery are not supportive of soul growth, regardless of who is the "adulterer" and who the "adulteree").

While at times you have rather striking tendencies toward extravagance, few souls are better bargain hunters! Such parsimonious behavior can be excessive, whether in companionship, in business or in any activity.

All these qualities open up a distinct opportunity for sharing the many talents with which you are endowed, to be applied as you see fit. You can accomplish a great deal through the candid yet right use

of words, preferably accompanied with music -- whether in writing, teaching, counseling, lecturing or singing -- providing what you say is uplifting and not just what people want to hear. As a private pursuit and attunement aid giving expression to the beautiful emotions, playing music would be good for you, too. Especially valuable would be any stringed-type instruments such as the piano, harpsichord, harp, mandolin, guitar or violin.

You are also probably good in accounting, accumulating facts and figures, whether in finances or in creative fancy. You would do well in commercial art and advertising, ornamental and industrial arts, computer or video graphics, designing logos and the like. Furthermore, whatever the career you build, work **WITH** a companion rather than just **BEING** a companion.

Whether through words, music or art, you will find your greatest soul development in leading others into the spiritual insight or recognition of their true self worth. To express love in your actions to others -- whether individuals, one on one, or in small groups -- is the greater service a soul can give in this earthly experience. You can best show them the way to the greater Light through your own personal example -- through love. This you can do by **FORCING** your will to an inner understanding both of your own worth and of the higher spiritual forces being exercised on your behalf in the present.

Such growth is not likely to be easy, for your behavior is not always consistent. For instance, especially when you are alone, not working, or otherwise inactive, you may get discouraged and in such "down" periods condemn yourself. At the same time, you may tend to **JUSTIFY** your manner of thinking because of what others have done or have failed to do. Remember that condemning yourself is as erroneous as condemning others. The greater need is to exert your will in favor of your urges for the beautiful and your ability to see the best in everyone.

Put into your own words, let your prayer or affirmation be something like, "I will be protected from loneliness. I will be shown through my dreams and other ways how to devote more of myself to others, so that I may establish closer personal bonds. In dedicating myself to service for others, I will bear this commitment for the sake of learning how to genuinely care for others and will be taught how to give and share joyfully with my loved ones." [2725-1, 1204-3, 2497-1, 1632-3]

Your Venus is in an inharmonious pattern with Mars.

While constructively emphasizing your virtues and minimizing any shortcomings, there is yet the need to point out your personal challenges from a likely Mars experience between earth lives. Perhaps after having experienced the love, beauty and sentiment of Venus, you chose to return to a new incarnation by way of the Mars dimension. There you probably undid a lot of what you learned during your otherwise fortunate soul sojourn in the domain of the love planet.

For instance, in Mars there is the inclination to be self-centered. Not in a hugely selfish way, but instead through a powerful determination to have your own way, even if shown that other means might be better.

This challenge is mostly indicated in your relationships with the opposite sex, especially your

spouse. In such circumstances, your passion and power drive conflicts with your love nature. At these times you may be impelled by a one-track mind, being incapable then of giving consideration to your partner's point of view. Yet from your experience in Venus, you are able to express your more sentimental feelings and affections upon occasion, but more as an emotional release valve than a means of giving and sharing love.

While the means by which you go about your associations with others have often brought you a pleasing love life or marital relations on one hand or success in business activities on the other, frequently they have brought consternation as well. If only to gratify bodily desires or to satisfy material positions in power or place in the world, they must eventually rust and eat away at the body-mind until there is even destruction to the soul.

Bear in mind that all urges from astrological or planetary experiences and influences are merely inclinations and tendencies: you do NOT necessarily have to react to them at all if you so choose. Instead, study, even saturate your consciousness with the promises of love and forgiveness in the Scriptures. Then, applying your will toward ideals derived from the Source in all phases of your relationships you will be more happy, harmonious and truly successful.

You might try the following prayer as an inner tool for working with these challenges. Put in your own words, it goes something like, "Lord, when my initial enthusiasm begins to wane and I find myself wondering why I chose a certain course of action or relationship with another, please give me patience and remind me that it takes an extra effort of will to maintain an interest, as it takes unconditional love in order to sustain a relationship. If difficulties arise, show me what You require, when I should proceed, when I should withdraw, when to take decisive action and when to surrender to another's wishes. In all situations, Lord, may I be helped to eliminate selfish interest which alienate those I really love." [2062-1, 1201-2, 531-1]

Your Mars is conjoined with Saturn.

You are always busy, both with your hands and with your mind. Your ambition, power drive and energy will always require a great deal of direction in the spiritual rather than the material or financial area of your life.

However, because of a likely misuse in past lives, power may be denied you in this lifetime unless you put all your trust, purpose and hope in the Christ and His ways. Your tendency to worry and become blocked over situations in which others disappoint you can be cleared up by trust in His power working with you.

Now, Mars is the consciousness dimension concerned with activity and applied energy related to material things. Positive expressions of Martian energy include courage, valor and clean competitiveness. Negative expressions are usually manifested emotionally as aggression and anger.

On the other hand, Saturn is the realm of remolding by the necessity for change. Martian energy is often restricted; for it must work within the common sense boundaries of Saturn's urge for change and

growth.

This interplay of the forces of Mars and Saturn may manifest outwardly as inertia on one hand or as serious challenges raised by those with whom you are associated, especially in career and financial decisions. The problematic activities of those who oppose you are likely to involve their anger as well as your own, or drives to satisfy personal wishes.

In Saturn is therefore found many changes in your associations and activities with others, along with changes in your purposes and guiding ideals. As these somewhat traumatic changes have come in your life, your first reaction has probably been one of confusion. At these times you can always CHOOSE whether or not to become involved in problems with others which cause you to lose your hold on the real Life in you as manifested through the Christ-Consciousness.

These personal power challenges are likely to remain with you until you choose to recognize Saturn's potential for positive changes. Do this through losing your self wholly in the Christ and His purposes in always doing for others. Consider not what others can do for you, but what you might do for them. [3573-1, 1438-1]

Your Mars harmoniously aspects Neptune.

In your cosmic past -- including previous earth incarnations as well as planetary soul experiences between lives -- you have been true to your higher spiritual intents and purposes. As a result you are easily able to enlist the aid of your angelic guardians and spirit guides.

This powerful spiritual protection, while hidden by its very nature, enables you to avoid deception from yourself and others. The same mystical protective shield also puts you in an excellent position to help others who are having difficulties with deception, drug or alcohol abuse, spirit possession, psychic illusions or delusions and a variety of mystical and occult-related preoccupations.

This favorable pattern brings from your past life spiritual bankbook many assets which you have earned for constructive use in the present. Among these positive karmic resources are very strong potentials for working safely and successfully with intuitive, psychic and mystical forces.

With the spiritual protection which surrounds you, together with your integrity and strong compassion, you are a practical idealist who can "dream true".

That is, rather than being deceived or deluded by your dreams and visions, you can be guided by and act decisively upon your dream, meditation and prayer experiences. This unique quality gives you great potential for much-needed spiritual leadership in the present.

Your Saturn harmoniously aspects Uranus.

From your experiences in Uranus and Saturn and a likely lifetime long ago in ancient Atlantis, in the present you are able to integrate practicality, patience and common sense with intuition, initiative and originality. You are therefore uniquely capable of pioneering leadership roles, for instance in introducing

Aquarian or "New Age" ideas into the more conservative mainstream.

The essential requirement is that you depend more and more on yourself and your own abilities. This self-assurance should apply not only to material or financial matters but also should embrace your abilities to think things through on your own and to apply spiritual principles in your relationships with others.

Whatever extreme changes that come to you are likely to be through the actions of others rather than any shortcomings of your own. Some changes will probably result from your efforts to enlighten others through scientific, social, religious, humanitarian and political means, while having respect for their traditions and rights.

Most of the changes in your experience will come periodically as opportunities for original accomplishments in new fields. Management and administrative responsibilities in electronic communications media as well as parapsychology and esoteric sciences are also areas where you may accomplish much.

After applying with characteristic determination your pioneering energy, often the status quo will be changed for the better. When this happens you may often find yourself free to change directions once more. Most of the time these changes will be opportunities for you to help others understand new approaches and theories which they would otherwise not accept without your initiative. [1934-1, 2630-1]

NOTE: The Zodiac signs of the Sun and Moon are analyzed below. First they will be analyzed in the Tropical zodiac. If the positions are different in the Sidereal zodiac, then they will also be analyzed in the Sidereal zodiac. Also, if the Sun and Moon are in the same zodiac sign, then only the Sun position is interpreted; the Moon position, being the same as the Sun position, does not need to be interpreted in this case.

Your Sun is in Scorpio (Tropical zodiac).

At times you may be considered by others as somewhat different, although on your own part, when those of comparable mental ability are part of your experience, you are known as a soul with nobleness of purpose and high-mindedness of principles. You are, in other words, one who is ABOVE the ordinary and may go far in leading, directing and assisting many souls to reach a better understanding of elemental, universal principles.

Long ago you may have been part of the once mighty Mongolian people of the ancient Gobi desert,

or among the culturally advanced Chinese. From such lifetimes as these, you have the ability to perform what is expected of you and to do what is necessary without being held back by your feelings or by considerations of a personal nature. This is a strength you inherited from one or more past lives in these remote Asian cultures, whose people shared this self-denying trait.

Perhaps you were once a young Chinese woman who gave birth to many children, ran a large household and pleased the master of the house. You may have done all this while quietly enduring the agony of brutally bound feet which was once a rather cultural requirement of the true ladies of ancient China.

Bear in mind that Mars is the planet of energy, power and war which rules or best symbolizes the essence of Scorpio. It may not be surprising then, that you may have been a Mongolian warrior who fought to the death for your tribal leader without hesitation or concern for your own injury or pain.

Above all, in these Asian past life settings, you had dignity, as you learned to cope with harsh conditions and challenges without wasting your energy on your personal needs.

A more recent incarnation among Native Americans like the plains Indians is also likely. Yet whether your life was among Orientals or American Indians, your characteristic past life suppression of individual feelings in sacrifice for the larger interests of your family, group or tribe may in the present make you appear cold, insensitive or uncaring, when you are actually very caring and compassionate. [2710-1]

Your Moon is in Pisces (Tropical zodiac).

Coming under the influences of Pisces, water and religion or spiritual matters are likely to have an untold influence on you. Of course, this depends upon the way you respond to these kinds of experiences, for they have probably played an important part or at least have been innate in your experience through many lifetimes in the earth.

Pisces means or symbolizes what is naturally, or by its very nature, representative of influences of the higher soul or higher spiritual level. Hence those things of the spiritual nature should preferably be the way in which your judgments are drawn, as to whether this or that activity should be your impelling influence. Not that you should become lost in motives or in influences impelling your actions: just use those things of the spiritual import as the measuring rod of your activities and experiences.

In light of this, the period around the birth and ministry of Jesus, the Christ, is the clearest past life for you to recall and build upon in the present. You may even remember a lifetime as part of Roman culture, where priority was placed upon position in society and in the military.

Another early Church memory might be stronger for you: the hills around Galilee and the desert near the Dead Sea where the Essenes and others gathered to meditate and study. Then too you may be emotionally drawn to painful scenes of being among early Christians who were martyred for the courage of believing in the Messiah. Regardless of specifics, you are quite likely always to be dominated by a sense of expectancy and mystery.

In later lifetimes since the early Church period, you were probably celibate, as a nun or monk of a leading religious order.

Noble, compassionate Jupiter and spiritual, mystical Neptune are the two rulers or key symbols for the sign of Pisces. From Neptune comes the intuitive forces, the mystical or mysterious influences in your experience, whether you allow them to be mentally or consciously active or not. Another influence of these planets as expressed through Pisces is that although you have a great deal of compassion, you may be too passive in expressing your personal energy and soul force. Also, it will probably be much easier for you than for most people to suppress your sexual desires because of the memory of one or more past lives when you set aside your personal concerns for the good of the entire community. [816-3, 1506-1, 997-1]

Your Sun is in Libra (Sidereal zodiac).

You may remember, in your deeper meditations and dreams, experiences from long ago when you were among great artists, sculptors, poets, and craftsmen of ancient India as well as the more recent leaders of prosperous, classical Greece. Even later day Venice, Florence and other Italian cities developed some of this love of culture, beauty and appreciation of art which you were closely involved with then and which you find rewarding still.

Venus is the planet of love, beauty and art, so it is very appropriate to convey the symbolic essence of the sign Libra, which it rules. Venus' influence through Libra also makes that which is crass and primitive quite unnatural for you to accept gracefully, or to participate in willingly.

You may also have been among many who reincarnated in the American South just before the Civil War. In the present you may have to learn the lesson of providing for your own needs, luxury and comfort rather than having others do provide these things for you. In fact, one of the challenges of Libra lies in being too liberal or indulgent with oneself. With prayerful application of your will, this too can be overcome. [303-31]

Your Past Life Decanates

According to an ancient Vedic astrology method still practiced in India, Past Life Planets are realms in which you sojourned between earth lifetimes. They are identified through the position of your sidereal Sun and Moon in the decanates (a decanate is a one-third division of a zodiac sign; each is ruled by a planet). Any patterns involving these Past Life Planets are therefore of special importance. Pay extra attention, then, to any sections of your Report which interpret these planets.

NOTE: If your Sun and Moon are both located in a decanate which is ruled by the same planet, then only the Sun position is interpreted; the Moon's decanate position, being the same as the Sun's, therefore does not need to be interpreted.

Your Sun is in Libra Decanate

Your sidereal Sun in LIBRA decanate, which is ruled by Venus. Venus as Past Life Planet points to high priorities in creativity, sociability and relationships, especially in your family/home life and in the world of nature. Urges toward these experiences and interests from your sojourn in the Venus dimension are likely to originate in parallel lifetimes of soul development through these areas of self-expression.

Especially indicated are lives in the early Jewish-Christian Church and later as an artist-musician in modern times, whether in the West (Europe and/or America), or in modern or colonial Asia.

Your Moon is in Pisces Decanate

Your sidereal Moon is in the decanate of Pisces, which is co-ruled by Neptune and Jupiter. This points to prominent soul journeys in the interlife realms of Jupiter and Neptune, and to one or more parallel lifetimes in which you were dedicated to spirituality, humanitarian, healing-oriented and spiritual, mystical endeavors. Your experiences then may have brought you prominence or notoriety in spiritual causes ranging from the Essenes and Gnostics around the time of Christ to Eastern temples and ashrams and later, medieval or modern monastic life.

Of likely special interest to you in your present life are mysticism, spirituality and most movements toward Oneness and the mysteries of Life and Nature, including dreams and mystical kinds of music and art. These interests and urges are intensified from lifetimes where the sea or large bodies of water played a large role, as well as from your soul experiences between earth incarnations in the realms of Neptune and Jupiter.
